Capitol Choices
Noteworthy Titles for Children and Teens
2015
CRITERIA

Our mission is to identify and select a yearly list of outstanding titles for children and teens. We consider books and audiobooks published in the current calendar year for readers from birth through the high school years. We look not only for those books and audiobooks that are obviously remarkable but also for those whose charm, art, information, or depth of feeling may enhance a young person's world. We especially look for books that may not find an audience without the benefit of special attention.

What does Capitol Choices mean by "the best"? "Best" of the year? "Best" by this author? "Best" of its type? Our discussions are often heated, always serious, filled with good humor and, in the end, the titles we choose meet all of these criteria. In addition to the qualities that mark good titles—clarity, accuracy, credibility, and that most elusive quality of all, distinguished writing, illustration or narration—we place special emphasis on titles which we believe appeal to and reflect the sensibilities of their intended audience.

WHO WE ARE

The first edition of Capitol Choices published in 1996 built on the work of the late Peggy Coughlan at the Children's Literature Center of the Library of Congress, who for many years edited an annual list entitled "Books for Children." The founding members of the Capitol Choices group who worked on these lists appreciated the opportunity to hone their critical skills during those years and wished to carry the work of that committee forward.

Since 1996, Capitol Choices has included librarians, teachers, booksellers, children's literature specialists, reviewers, and magazine editors who work in cities, suburbs, and rural areas in and around Washington, D.C. Most of us work directly with young people, and all of us share a passion for books and a commitment to pairing children with books.

JOIN US

Our website at www.CapitolChoices.org offers more opportunities for interaction among members plus a blog to find book-related news and events from Capitol Choices. We welcome your visit in person at our monthly meetings or online via our website, where you can find schedules and directions. Capitol Choices members are also available to present workshops on the best titles of the year, how to evaluate books and audiobooks for young people, and other topics related to our passion for literature for young and teen readers.
